Additional Comments		
--Homework assignments that were laid out in the syllabus was never given to the class. Class material was not posted in a timely fashion 50% of the time. Going into the final I don't have a solid idea of what my grade is due to the lack of homework (40% of final grade).		
--Dr. Bracher clearly knows his stuff and showed a genuine interest in his course and his students. He made the class engaging and educational, breaking difficult concepts down to their basics so even those without a great organic background could keep up. So far this is the course I have enjoyed the most and learned the most here at SLU. The only thing that could make the class better would be a little more guidance on individual performance in the course (and maybe a little more preparation). With that being said, still a great course that I've greatly enjoyed and the best course I've had so far.
