Comment on the SECTION and/or LAB LEADER.													
Paul was amazing - dedicated, enthusiastic, & extremely helpful Fabulous handouts, extra office hours - I won the section TF lottery!													
Comment on the SECTIONS/LABS/STUDIOS and their contribution to the course.													
Labs - really not too relevant, could I have taken a marathon version over intercession, rather than devote 5 hrs a week?													

**COURSE OVERALL**

What preparation or background is necessary to take this course?

Chem 17

Comment on the strengths and weaknesses of the course. How could it be improved?

less deviations from pre-notes

Would you recommend this course? Why or why not?

NO, only if you have to take it

What did you gain from this course?

pre-med credit

Comment on the SECTIONS/LABS/STUDIOS and their contribution to the course.												
A) section was helpful as a clear review												
B) lab was SO LONG but fun.												

### COURSE OVERALL

What preparation or background is necessary to take this course?

Chem 17

Comment on the strengths and weaknesses of the course. How could it be improved?

- better time management of material / lectures
- move slower

A weekly review sessions NECESSARY!

Would you recommend this course? Why or why not?

What did you gain from this course?

pain, much pain.

Comment on the SECTIONS/LABS/STUDIOS and their contribution to the course.											
Useful supplement to class.											

**COURSE OVERALL**

What preparation or background is necessary to take this course?  
 Yes, Chem 17 or prior org knowledge

Comment on the strengths and weaknesses of the course. How could it be improved?  
 Maybe more detailed background on material/mechanisms.  
 generally strong teaching.

Would you recommend this course? Why or why not?  
 Yes, it was taught fairly well + wasn't boring. Great TF's too.

What did you gain from this course?

### COURSE OVERALL

What preparation or background is necessary to take this course?	Chem 17 or 20-30
Comment on the strengths and weaknesses of the course. How could it be improved?	no more lab! or less lab! or don't make us personally re-evaluate every time. Lab was often more tedious & time-consuming than educational.
Would you recommend this course? Why or why not?	Yes. Interesting if a lot of work.
What did you gain from this course?	better synthesis of chem & bio a deeper understanding of how drugs, AIDS, etc work.

Comment on the SECTION and/or LAB LEADER.		Created an easy going atmosphere; was very engaging (& funny!) Made excellent handouts; went above & beyond to help any student learn. Very approachable & friendly - and he knows his stuff.									
Comment on the SECTIONS/LABS/STUDIOS and their contribution to the course.		Very useful in learning "tricks" for solving problems & getting feedback & guidance while working problems.									

### COURSE OVERALL

What preparation or background is necessary to take this course?	Chem 17 or Chem 20/30
Comment on the strengths and weaknesses of the course. How could it be improved?	Well-paced, plenty of relevant problems - interesting material Weakness - competitive (200 pre-meds fighting tooth & nail for med school - worthy grades - let it go, people!) I wish less emphasis on exams -- Maitland Jones gives unlimited time.
Would you recommend this course? Why or why not?	Yes, a painless way to get orgo out of the way, or get more practice
What did you gain from this course?	reinforcement of organic mechanisms & problem solving; interesting biochemical perspective... appreciation for Science / Chemistry. My grade probably won't be great, but I enjoyed it & learned a lot, - and that's the point.

Comment on the SECTION and/or LAB LEADER.

*I think they should be voluntary.*

Comment on the SECTIONS/LABS/STUDIOS and their contribution to the course.

*They're fine (sections); labs are pointless and do not contribute to the course at all.*

**COURSE OVERALL**

What preparation or background is necessary to take this course?

*Chemistry → AP high school, 5/7, 15*

Comment on the strengths and weaknesses of the course. How could it be improved?

*improved ⇒ Labs could be more related to course material; sections would be voluntary*

Would you recommend this course? Why or why not?

*Not unless you have to take it → its 9 hours a week!*

What did you gain from this course?

*a hatred for chemistry*

Comment on the SECTION and/or LAB LEADER.											
<p>Section: Great handouts + efforts in relaying the material effectively</p> <p>Lab: very knowledgeable + helpful during lab times</p>											
Comment on the SECTIONS/LABS/STUDIOS and their contribution to the course.											
<p>Section: really helped w/ understanding of material</p> <p>Lab: <del>was</del> seemed like a completely different class</p>											

### COURSE OVERALL

What preparation or background is necessary to take this course?

Chem 17

Comment on the strengths and weaknesses of the course. How could it be improved?

A little fast paced, could be slowed down and made more useful for real-life understanding of things

Would you recommend this course? Why or why not?

Yes, for premed ... those interested in chem/bio

What did you gain from this course?

Better understanding of bio chemical pathways

### COURSE OVERALL

What preparation or background is necessary to take this course?	<i>Strong organic. Chem 17 IS NOT ENOUGH!</i>
Comment on the strengths and weaknesses of the course. How could it be improved?	<i>Too much material too fast and inadequate demonstrations, reviews, of problem solving. Expectations unclear in terms of what part of the vast material will be on the exams.</i>
Would you recommend this course? Why or why not?	<i>NO.</i>
What did you gain from this course?	<i>A good grounding in topics related to Biochem. For all my problems with this class, I did learn a lot of interesting things.</i>

Comment on the SECTION and/or LAB LEADER.  
 Paul is a great TF! He's a good teacher and he's funny and nice. I like the handouts and practice problems.  
 I felt like [REDACTED] got more helpful as the year went on.  
[REDACTED] was also really helpful.

Comment on the SECTIONS/LABS/STUDIOS and their contribution to the course.  
 The labs were completely unrelated to the subject matter - I've heard that they match up with chem 30 though

**COURSE OVERALL**

What preparation or background is necessary to take this course? Chem 27 is mostly just <sup>holistic</sup> applications of what we learned in 17 at least Chem 17 → preferably a better chem 17 than we had last semester

Comment on the strengths and weaknesses of the course. How could it be improved?  
 It's very organized and the lectures are clear and the way he fills out the prenotes keeps a good pace for taking notes.  
 The exams are long, so if you don't know how to do a problem on the first glance, you aren't going to have time to think about it.

Would you recommend this course? Why or why not?  
 Yeah, it was pretty good

What did you gain from this course?  
 I found an interest in organic chemistry that I didn't think was possible after Chem 17
